

**Table 1 - ARARs for Remedial Action at the Portland Harbor Superfund Site.**

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>			
Clean Water Act,	33 USC 1344	Regulates discharge of dredged and fill material into navigable waters of the United States.	Action-specific.
Section 404 and Section 404(b)(1) Guidelines	40 CFR Part 230		
			Applicable to dredging, covering, capping, and designation and construction of in-water disposal sites and in-water filling activities in the Willamette River.
Clean Water Act,	33 USC 1313, 1314	Provides minimum criteria for water quality programs established by states. Two kinds of water quality criteria are developed: one for protection of human health, and one for protection of aquatic life. Lists criteria for Priority Toxic Pollutants.	Chemical-specific and Action-specific.
Ambient Water Quality Criteria	40 CFR Part 131.36(b)(1)		
			Relevant and appropriate for cleanup standards for surface water and contaminated groundwater discharging to surface water if more stringent than promulgated state criteria. Relevant and Appropriate to short-term impacts to surface water from implementation of the remedial action that result in a discharge to navigable water, such as dredging and capping if more stringent than promulgated state criteria.
Clean Water Act,	33 USC 1341	Any federally authorized activity which may result in any discharge into navigable waters requires reasonable assurance that the action will comply with applicable provisions of sections 1311, 1312, 1313, 1316, and 1317 of the Clean Water Act.	Action-specific.
Section 401	40 CFR Section 121.2(a)(3), (4) and (5)		
			Applicable to implementation of the remedial action that results in a discharge to the river.
Clean Water Act, Section 402	33 USC 1342	Regulates discharges of pollutants from point sources to waters of the U.S., and requires compliance with the standards, limitations and regulations promulgated per Sections 301, 304, 306, 307, 308 of the CWA.	Relevant and Appropriate to remedial activities that result in a discharge of pollutants from point sources to the river if more stringent than state promulgated point source requirements.

**Table 1 - ARARs for Remedial Action at the Portland Harbor Superfund Site.**

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>			
Safe Drinking Water Act	42 USC 300f, 40 CFR Part 141, Subpart O, App. A. 40 CFR Part 143	Establishes national drinking water standards to protect human health from contaminants in drinking water	Chemical-specific
			Relevant and appropriate as a performance standard for groundwater and surface water which are potential drinking water sources.
Resource Conservation and Recovery Act	40 CFR 260, 261	Establishes identification standards and definitions for solid and hazardous waste, including when dredged material is exempt from the definition of a hazardous waste.	Action-specific.
			Applicable to characterizing wastes generated from the action and designated for off-site or upland disposal; potentially relevant and appropriate for use in identifying acceptance criteria for confined in-water disposal.
RCRA – Solid Waste	40 CFR 257 Subpart A		RCRA Solid Waste requirements may be relevant and appropriate to remedial actions that result in upland or in-water disposal of dredged material. Requirements for the management of solid waste landfills may be relevant and appropriate to upland disposal.
Hazardous Materials Transportation Act	49 USC § et seq. 40 CFR Parts 171-177		Hazardous Materials Transportation Act requirements are applicable to remedial actions that involve the transport of hazardous materials (i.e., dredged material)
Fish and Wildlife Coordination Act Requirements	16 USC 662, 663	Requires federal agencies to consider effects on fish and wildlife from projects that may alter a body of water and mitigate or compensate for project-related losses, which includes discharges of pollutants to water bodies.	Action-specific.
	50 CFR 6.302(g)		Potentially applicable to determining impacts and appropriate mitigation, if necessary, for effects on fish and wildlife from filling activities or discharges from point sources.

**Table 1 - ARARs for Remedial Action at the Portland Harbor Superfund Site.**

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>			
Magnuson-Stevens Fishery Conservation and Management Act	50 CFR Part.600.920	Evaluation of impacts to Essential Fish Habitat (EFH) is necessary for activities that may adversely affect EFH.	Location-specific.
			Potentially applicable if the removal action may adversely affect EFH.
Federal Emergency Management Act	44 CFR 60.3(d)(2) and (3)		FEMA flood rise requirements are considered relevant and appropriate requirements for remedial actions.
River and Harbors Act	33 USC 401 <u>et seq.</u>	Section 10 prohibits the unauthorized obstruction or alteration of any navigable water. Structures or work in, above, or under navigable waters are regulated under Section 10.	Action-specific. Applicable requirements for how remedial actions are taken or constructed in the navigation channel.
	33 CFR parts 320 to 323		
Clean Air Act	42 USC §7401 <u>et seq.</u>		Action-specific. Applicable to remedial activities that generate air emissions.
Toxic Substances Control Act	15 USC §2601 <u>et seq.</u>		Chemical-specific. TSCA requirements are applicable to contaminated material or surface water with PCB contamination
Marine Mammal Protection Act	16 USC §1361 <u>et seq.</u>		Action-specific. Applicable to remedial actions that have the potential to affect marine mammals.
	50 CFR 216		
Migratory Bird Treaty Act	16 USC §703	Makes it unlawful to take any migratory bird. “Take” is defined as pursuing, hunting, shooting, poisoning, wounding, killing, capturing, trapping and collecting.	Action-specific. Applicable to remedial actions that have the potential to effect a taking of migratory birds.
	50 CFR §10.12		

**Table 1 - ARARs for Remedial Action at the Portland Harbor Superfund Site.**

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>			
National Historic Preservation Act	16 USC 470 <u>et seq.</u> 36 CFR Part 800	Requires the identification of historic properties potentially affected by the agency undertaking, and assessment of the effects on the historic property and seek ways to avoid, minimize or mitigate such effects. Historic property is any district, site, building, structure, or object included in or eligible for the National Register of Historic Places, including artifacts, records, and material remains related to such a property.	Action-specific.  Potentially applicable if historic properties are potentially affected by remedial activities.
Archeological and Historic Preservation Act	16 USC 469a-1	Provides for the preservation of historical and archeological data that may be irreparably lost as a result of a federally-approved project and mandates only preservation of the data	Action-specific.  Potentially applicable if historical and archeological data may be irreparably lost by implementation of the remedial activities.
Native American Graves Protection and Reparation Act	25 USC 3001-3013 43 CFR 10	Requires Federal agencies and museums which have possession of or control over Native American cultural items (including human remains, associated and unassociated funerary items, sacred objects and objects of cultural patrimony) to compile an inventory of such items. Prescribes when such Federal agencies and museums must return Native American cultural items. "Museums" are defined as any institution or State or local government agency that receives Federal funds and has possession of, or control over, Native American cultural items.	Location-specific; action-specific.  If Native American cultural items are present on property belonging to the Oregon Division of State Lands (DSL) that is a part of the removal action area, this requirement is potentially applicable. If Native American cultural items are collected by an entity which is either a federal agency or museum, then the requirements of the law are potentially applicable.

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>			
Endangered Species Act	16 USC 1531 et seq.	Actions authorized, funded, or carried out by federal agencies may not jeopardize the continued existence of endangered or threatened species or adversely modify or destroy their critical habitats. Agencies are to avoid jeopardy or take appropriate mitigation measures to avoid jeopardy.	Action-specific.
	50 CFR 17		Applicable to remedial actions, that may adversely impact endangered or threatened species or critical habitat that are present at the site.
Executive Order for Wetlands Protection	Executive Order 11990 (1977) 40 CFR 6.302 (a)	Requires measures to avoid adversely impacting wetlands whenever possible, minimize wetland destruction, and preserve the value of wetlands.	Location-specific.
	40 CFR Part 6, App. A		Relevant and appropriate in assessing impacts to wetlands, if any, from the response action and for developing appropriate compensatory mitigation for the project.
Executive Order for Floodplain Management	Exec. Order 11988 (1977)	Requires measures to reduce the risk of flood loss, minimize impact of floods, and restore and preserve the natural and beneficial values of floodplains.	Location-specific.
	40 CFR Part 6, App. A		
	40 CFR 6.302 (b)		
National Flood Insurance Act and Flood Disaster Protection	42 USC 4001 et seq.		Relevant and appropriate for assessing impacts, if any, to the floodplain and flood storage from the response action and developing compensatory mitigation that is beneficial to floodplain values.
	44 CFR National Flood Insurance Program Subpart A		
	Requirements for		
	Flood Plain Management Regulations Areas

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>			
<b>State ARARs</b>			
Oregon Environmental Cleanup Law ORS 465.315.	Oregon Hazardous Substance Remedial Action Rules	Sets standards for degree of cleanup required, including for oil and other petroleum products/wastes. Establishes acceptable risk levels for human health at $1 \times 10^{-6}$ for individual carcinogens, $1 \times 10^{-5}$ for multiple carcinogens, and Hazard Index of 1 for non-carcinogens; and protection of ecological receptors at the individual level for threatened or endangered species and the population level for all others. OAR 340-122-0040 and 0115(3).	<u>Chemical-specific</u> : a risk-based numerical value that, when applied to site-specific conditions, will establish concentrations of hazardous substances that may remain or be managed on-site in a manner avoiding unacceptable risk.
	OAR 340-122-0040(2)(a) and (c), 0115(3),(32) and (51).		
	OAR 340-122-0040(4), 340-122-0115(32)	For hot spots of contamination in water, requires treatment, when treatment would be reasonably likely to restore or protect beneficial uses within a reasonable time.	<u>Chemical-specific and action-specific</u> : when contaminant concentrations fall within the definition of “hot spot” set forth in subpart 0115(32), treatment of contaminated media to levels below such risk levels needs to be evaluated in the feasibility study
		OAR 340-122-0090(4)(a).	
	OAR 340-122-0040(4), 340-122-0115(32)	For hot spots contamination of sediments, requires treatment or excavation and off-site disposal of hazardous substances if treatment is reasonably likely to restore or protect such beneficial uses within a reasonable time, .	<u>Chemical-specific and action-specific</u> : when contaminant concentrations fall within the definition of “hot spot” set forth in subpart 0115(32), treatment of contaminated media to levels below such risk levels needs to be evaluated in the feasibility study
		OAR 340-122-0090(4)(b).	
	Hazardous Waste Management Rules	Contains the criteria by which anyone generating residue must determine if that residue is a hazardous waste	<u>Chemical- and Action-specific</u> : specifies substantive requirements if remedial action will involve on-site treatment, disposal, or storage of RCRA-listed or characteristic hazardous waste.
	OAR 340-102-0011 - <b>Hazardous Waste Determination</b>		(Note: off-site treatment, storage, or disposal subject to all administrative and substantive state requirements.)

**Table 1 - ARARs for Remedial Action at the Portland Harbor Superfund Site.**

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>			
	Identification and Listing of Hazardous Waste	Identifies additional residuals that are subject to regulation as hazardous waste under state law	<u>Action-specific</u> : specifies requirements if remedial action will involve on-site treatment, disposal, or storage of additional listed wastes.
	OAR 340-101-0033		
	Solid Waste: General Provisions	Substantive Requirements for the location, design, construction, operation, and closure of solid waste management facilities.	<u>Action-specific</u> : applicable if upland disposal facility contemplated on-site for solid, non-hazardous, waste disposal, handling, treatment, or transfer. (Note: off-site transfer, treatment, handling, or disposal subject to all administrative and substantive state requirements.)
	Solid Waste: Land Disposal Sites Other than Municipal Solid Waste Landfills	Requirements for the management of solid wastes at land disposal sites other than municipal solid waste landfills.	<u>Action-specific</u> : applicable to the on-site management and disposal of contaminated sediment, soil, and/or groundwater.
Water Pollution Control Act ORS 468B.048	Water Quality Standards OAR 340-041-0340, Table 20 and Table 33A	DEQ is authorized to administer and enforce CWA program in Oregon. DEQ rules designate beneficial uses for water bodies and narrative and numeric water quality criteria necessary to protect those uses. OAR 340-041-0340 designates and defines the beneficial uses that shall be protected in the Willamette Basin. For the purposes of state law, Table 20 are the applicable criteria, unless there is a corresponding criterion under Table 33A, in which case Table 33A is applicable.	<u>Chemical- and action-specific</u> : applicable to any discharges to surface water from point sources, groundwater, overland flow of stormwater, and activities that may result in discharges to waters of the state, such as, dredge and fill, de-watering sediments, and other remedial activities. Relevant and appropriate as performance standards for surface water quality and/or for long-term monitoring of protectiveness of caps and disposal sites and where contaminants are left in place
	Regulations Pertaining to NPDES Discharges	Effluent limitations and management practices for point-source discharges into waters of the state (otherwise subject to NPDES permit but for on-site permit exemption).	<u>Chemical- and Action-specific</u> : applies state water quality standards and effluent limitations to point-source discharges to the Willamette River.

**Table 1 - ARARs for Remedial Action at the Portland Harbor Superfund Site.**

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
Federal ARARs	Certification of Compliance with Water Quality Requirements and Standards	Provides that federally-approved activities that may result in a discharge to waters of the State requires evaluation whether an activity may proceed and meet water quality standards with conditions, which if met, will ensure that water quality standards are met.	Action-specific: Applicable to implementation of the remedial action (e.g., dredging, capping, and construction of confined disposal facility) that may result in a discharge to waters of the State.
	ORS 468b.035		
	Rules Governing the Issuance and Enforcement of Removal-Fill Authorizations within Waters of Oregon Including Wetlands	Substantive requirements for dredge and fill activities in waters of the state.	<u>Action-specific</u> : Applicable to remedial action dredge and fill activities, capping, and riverbank remediation
	OAR 141-085 0680, 141-085-0695, 141-085-0710, 141-085-0765		
ODFW Fish Management Plans for the Willamette River	OAR 635, div 500	Provides basis for in-water work windows in the Willamette River.	Action-specific.
			Potentially applicable to timing of implementation of the remedial action due to presence of protected species at the site.
Oregon Air Pollution Control	General Emissions Standards	DEQ is authorized to administer and enforce Clean Air program in Oregon. Rules provide general emission standards for fugitive emissions of air contaminants and require highest and best practicable treatment or control of such emissions.	<u>Action-specific</u> : applicable to remedial actions taking place in on-site uplands. Could apply to earth-moving equipment, dust from vehicle traffic, and mobile-source exhaust, among other things.
ORS 468A <u>et seq.</u>	OAR 340-226		

**Table 1 - ARARs for Remedial Action at the Portland Harbor Superfund Site.**

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>	Fugitive Emission Requirements	Prohibits any handling, transporting, or storage of materials, or use of a road, or any equipment to be operated, without taking reasonable precautions to prevent particulate matter from becoming airborne. These rules for “special control areas” or other areas where fugitive emissions may cause nuisance and control measures are practicable.	<u>Action-specific</u> : applicable to remedial actions taking place in on-site uplands. Could apply to earth-moving equipment, dust from vehicle traffic, and mobile-source exhaust, among other things.
	OAR 340-208		
Indian Graves and Protected Objects ORS 97.740-760		Prohibits willful removal of cairn, burial, human remains, funerary object, sacred object or object of cultural patrimony. Provides for reinterment of human remains or funerary objects under the supervision of the appropriate Indian tribe. Proposed excavation by a professional archeologist of a native Indian cairn or burial requires written notification to the State Historic Preservation Officer and prior written consent of the appropriate Indian tribe.	
		Prohibits persons from excavating, injuring, destroying or damaging archeological sites or objects on public or private lands unless authorized	
Archeological Objects and Sites		Imposes conditions for excavation or removal of archeological or historical materials.	Location-specific; action-specific.
ORS 358.905-955 ORS 390.235			Potentially relevant and appropriate if archeological material encountered.
	Survival Guidelines OAR 635-100-0135	Survival Guidelines are rules for state agency actions affecting species listed under Oregon's Threatened or Endangered Wildlife Species law.	<u>Action-and location specific</u> : Substantive requirements of Survival Guidelines relevant and appropriate to remedial activities affecting state-listed species.

**Table 1 - ARARs for Remedial Action at the Portland Harbor Superfund Site.**

Regulation	Citation	Criterion/Standard	Applicability/Appropriateness
<b>Federal ARARs</b>			
Guidance for Assessing Bioaccumulative Chemicals of Concern in Sediment DEQ, 2007		Describes a process to evaluate chemicals found in sediment for their potential contribution to risk as a result of bioaccumulation. Provides alternative methods for developing sediment screening levels and	<u>To be Considered:</u> in level of cleanup or standard of control that is protective.
